

IT Services & Solutions Customized to Meet Your Needs.

With thousands of healthcare RCM clients served, we understand that every practice has unique and complex needs – and that one size doesn't fit all.

That's why we tailor our IT services to address your specific challenges, providing you with a complete IT solution and single point of accountability.

Managed IT Services

We provide end-to-end managed IT services for your practice technology environment. This ensures seamless operations, trusted security and the compliance necessary to support your EHR and RCM needs.

Client Support

Our dedicated client support team is here to assist you with technical or application related queries, ensuring seamless support and optimized performance of your IT solutions.

Implementation

Our specialized team provides expert consulting and customized implementation of PM and EHR solutions, streamlining your clinical workflows and maximizing RCM efficiency.

PM/EMR Licensing

We offer flexible licensing options for PM and EHR solutions, granting access to top-tier tools that enhance medical billing accuracy and elevate patient care.

Hosting

Our reliable hosting services provide a robust infrastructure for your PM and EHR solutions, guaranteeing uninterrupted access, performance, redundancy, backup and security.

Migration Services

Our migration services enable smooth and secure transitions between platforms, ensuring that your clinical, demographic, and appointment data is transferred accurately.

Automation

We drive efficiency in clinical workflow and RCM through state-of-the-art automation techniques, reducing errors and allowing your team to focus on more strategic tasks.

EMR Archive

We offer comprehensive EMR archiving solutions, preserving historical patient data with robust security and easy accessibility for compliance and continuity of care.

Integration

Our integration services ensure seamless interoperability and alignment between your PM, EHR and business or clinical partners, backed by extensive expertise in HL7, FHIR, Mirth and other messaging platforms.

Business Intelligence

We translate your medical billing data into actionable insights and provide customized reporting within your PM and EHR system, improving decision-making and strategic planning for your practice.

Let us remove the friction in your IT infrastructure so you can focus on performance.
